

Eraneos Group  
Media Release

## **Eraneos recruits renowned expert Dr. Carlo Gebhardt for Secure Digital Transformation**

**Zurich, 03 October 2023 – Eraneos further strengthens their Cyber Security & Privacy capability with the internationally recognized expert in secure digital transformation, Carlo Gebhardt. The long-time leader in cyber security forethought joins as partner to take on leadership in a dual role: Lead for the Group's Strategic Cyber Security Initiative; and Lead for Secure Digital Transformation at Eraneos Switzerland.**

This is a highly strategic move, with Eraneos advancing its global reach and accelerating client access to cutting-edge digital transformation expertise, particularly in the related domains of cloud computing and platform technologies, on an international basis. Carlo Gebhardt is set to complement Eraneos' current robust Cyber Security & Privacy competencies portfolio with services that further enable accelerated secure digital transformations, while also driving synergies within the international Eraneos network organization.

"Cyber security & resilience are the foundation for any digital transformation journey today. Cloud has become the de-facto digitalization standard, with security and privacy as one of the foundational pillars. Cyber security has transformed into a fundamental business enabler." **Carlo Gebhardt, Head of Cyber Security Eraneos Group.**

"Eraneos has the agility, we have the culture, and we have the talent and the people to have a profound impact on the digital transformation journey. We are pleased to welcome Carlo Gebhardt to drive our efforts in both supporting our clients on their journeys and intensifying our own Eraneos portfolio to confirm us as a key international player in this space." **Oliver Vaterlaus, CEO Eraneos.**

# eraneos

Dr. Carlo Gebhardt proves over 25 years' experience in secure IT principles, processes, and practices, beginning with his extended studies in computer engineering, through to his PhD where he pioneered the focus on trusted cloud security. He is an internationally recognized leader and inspired innovator and has deep career experience in consultancy and cloud security across the European room.

## About Eraneos Group

Eraneos Group is an international management & technology consulting group providing digitalization and transformation services, from strategy development to implementation. It has emerged from the alliance of Ginkgo Management Consulting, Quint Group, and AWK Group, as announced in 2021, and with DCP and W21, in 2022. The Group serves clients across three continents where some 1100 dedicated and highly skilled professionals work jointly to unleash the full potential of digital. Services range from the development of digital business models and data analytics to cyber security, and from sourcing and IT advisory to the management of complex transformation projects. Eraneos Group has offices in Switzerland, Germany, the Netherlands, Spain, Austria, China, Singapore, and the USA. In 2022, Eraneos Group realized a turnover of over 220m EUR.
